

Friends of Emroyd

Improving Our Local Environment

Newsletter 6

Have you joined us on Facebook? It is just one way we like to keep the Friends of Emroyd informed of the work the management group are continuing to do when they meet. The newsletter will still remain the main form of communication but Facebook will enable us to capture immediate pictures of actions being taken for all to see.

A work session has been arranged for Saturday 14th November from 10am to 12 noon. As usual we will meet at the cemetery gates and then break into groups to trim branches overhanging any paths, litter pick, and review what actions we need to take. Some individuals may work in the triangle area near Thornhill Road to remove dead vegetation around new plants. If you would like to do that please contact Linda Webster on 07779736206 so arrangements can be made for a meet directly at that area.

It is the time of year when budget preparations are being made by the Parish Council for the maintenance and development of Emroyd. Once again we are asking for feedback and ideas from people within the Parish about Emroyd. We are putting regular articles in Coxley News and the community news column in the Wakefield Express so please let us know your thoughts.

We are hoping for a follow up walk by Maurice Woodhead in the winter and hope to be able to let everyone know about the planning application for the route around the perimeter of the meadow field and through the woods in our next newsletter.

Join us on the 14th November with your own refreshments and suitably dressed if it is cold!!!!

Hope to see you there -
